Profile

Aspiring Frontend Developer with expertise in HTML, CSS, JavaScript, and library like React. A solid foundation in Data Structures and Algorithms enables me to excel at solving complex coding challenges. Experienced in designing and developing responsive, user-centric web interfaces with a creative approach to improving user experience. I am passionate about innovation and eager to contribute to impactful projects while working collaboratively in dynamic team environments.

Education

Arya College Of Engineering And IT,

09/2022 – 05/2026

Bachelor of Technology - Artificial Intelligence and Data Science

Skills

Programming language: — C, Python, JavaScript

Web Development — HTML, CSS, React.js, SQL

Tools & libraries — Git, GitHub, Tailwind

Other Skills — Problem Solving, OOPS, Teamwork, Time Management

Projects

Personal Portfolio Website [🔗](#)

- Developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript.
- Integrated a contact form with Node.js, Express, and MongoDB for backend functionality.
- Deployed the site on Netlify for public access and GitHub for version control.
- Implemented features like dark mode, certifications section, and project showcase.

Weather Web App [🔗](#)

- Built a fully responsive web application that fetches and displays real-time weather data (temperature, humidity, wind speed, conditions) based on user-entered city.
- Integrated dynamic weather icons and error handling (invalid city inputs, loading states).
- Deployed live on GitHub Pages for public access.
